Switzerland **Furnaces and ovens since 1927**

More than 300 models from 200°C to 2000°C,
capacity from 1 liter to 8000 liters

Laboratory ovens <500°C

Laboratory ovens with natural or forced convection.

Industrial ovens <500°C

Industrial ovens with natural or forced convection.

High temperature furnaces >1300°C

High temperature furnaces up to 1800°C.

Melting furnaces

Fixed, removable or tilting crucible furnaces for melting non-ferrous metals.

Laboratory furnaces <1100°C

Laboratory chamber furnaces

Industrial furnaces 500-1300°C

Industrial chamber furnaces

Heat treatment furnaces

Furnaces for work under controlled atmosphere.

Components & spare parts

Muffles, crucibles, regulators...

History

Dr. Charles Borel

Borel since 1927

Borel was founded in 1927 by Dr. Charles Borel. It is one of the oldest furnace manufacturers in Europe. Borel ovens are used by more than 20'000 customers worldwide.

Presentation

Borel Swiss is the leading manufacturer of electric furnaces, kilns and ovens for metal, heat processing, heat treating, metal melting, ceramics, glass, porcelain, pottery markets.

Borel offers a whole range of standard furnaces, accessories & spare parts. To meet your specific requirements, Borel can propose custom-made products.

Borel Swiss is certified ISO 9001:2008 by SGS Switzerland and proposes, upon request and under advantageous conditions, guarantee extensions up to 5 years for all its products. All the Borel furnaces are EC certified and some of them may be subject to special certifications (AMS-type...) upon request.

All the Borel furnaces are made in Switzerland or in Europe by our subcontractors with whom we have a partnership. All the Borel furnaces are subject to a quality control and functioning tests in our workshops in Switzerland before shipment.

Certified
ISO 9001:2008

Borel Swiss is a division of SOLO Swiss Group – www.soloswiss.com
