

## DATA SHEET

# MANUAL WATER PUMP

REFERENCE AC1005

**Manual Water Pump**, is the cheapest way of having a very simple cook water dispenser at home or at work.

It is very easy to use, and effective, as it has an escape valve that can be activated to prevent spills out of the container you are filling, and a anti-drip cap to prevent water from spilling onto the floor. In addition, it has 4 tubes that allow the Manual Water Pump to be placed in different bottle formats, from 11.8 liters to 20 liters, making it fully adaptable to 5 gallon cap bottles.

**Available in Blue.**

This product is perfect **to combine with our PET Bottle Stacker.**
