

DATA SHEET

500 ML TRITAN BOTTLE

REFERENCE AC1033/AC1034/AC1035

500 ml water bottle made of **Tritan**, food-safe material **Bisphenol-A Free**, highly resistant and **suitable for high-temperature dishwashing**.

Elegant aluminium cap with screw-type closure, incorporates a silicone ring that seals the cap, achieving a perfect closure without dripping.

The cap also incorporates a textile strap that allows you to take it with you wherever you go.

Qualities of our Hods bottle:

- ✔ it is a lightweight, high quality material, impact resistant and has superior durability.
- ✔ The hardness of the Tritan extends its useful life being a more sustainable product.
- ✔ Does not retain odors or flavors.
- ✔ it admits cold and hot drinks (not superior to 100°C), as infusions, etc.
- ✔ It is a plastic suitable for contact with drinks and food.
- ✔ It can be washed by hand or in the dishwasher over and over again without affecting its quality, so they are reusable.
- ✔ Ice cubes can be inserted.
- ✔ Its closure is designed to prevent leaks.

Available in blue, grey and transparent.
