

DATA SHEET

TRANSPARENT CUP DISPENSER

REFERENCE AC1022

Transparent cup dispenser **made of very resistant Polycarbonate (PC)**, which allows it to be placed in any machine regardless of colour and design.

Equipped with a **1.5 mm thick steel clamp** riveted to the cup dispenser that provides a great fixation to the machine, as there are three **0.5 mm thick steel flanges** riveted for the dosage of the plastic cups.

These new **12.9 mm wide steel flanges** riveted to the cup dispenser allow efficient one by one cup extraction.

Both the support and the steel flanges have been subjected to a **chrome treatment that provides greater hardness, resistance to wear and corrosion.**

It incorporates 2 screws of subjection to the water dispenser.

Note: boxes contain 24 units.
