

## DATA SHEET

# WOODEN STAND DESKTOP / FLOOR

REFERENCE AC1027/AC1030

The **Wooden Desktop Stand** is an accessory for water dispensers that offers a convenient solution for adapting the height of the dispensers to the customer's needs, such as placing them on a kitchen bench or a surface at a certain height.

The **Wooden Floor Stand** is an ideal accessory for water dispensers that are intended to be incorporated directly into the floor to act as a watercooler. In cases where a surface with a minimum height is not available for the user's comfort.

With these stands it is possible, firstly, to offer solutions at different levels and/or environments. They also provide stability and safety with their reinforced cross design, which improves grip on the base and support. Furthermore, the supports, by protruding from the base where the dispenser is placed, provide aesthetics and consistency to the structure. Additionally, cleaning is quick and easy on the entire surface on which it rests.

Finally, it should be noted that these structures are lightweight, quick to assemble, simple and very competitively priced.

It is suitable for the following models: Simple Dispenser and Ceramic Dispenser.

\*See compatibility on next page.

Wooden Desktop Stand Reference: AC1027

Wooden Floor Stand Reference: AC1030
