

## **DATA SHEET**

## CUPS COLLECTOR

**REFERENCE AC1009** 

Cup collector that reduces the space of the plastic cups as they are used, being able to store up to 120 plastic cups vertically and in an orderly manner.

Ideal for placing on one side of the water dispenser, being able to eliminate the typical wastepaper basket that is placed to throw the glasses, being a complement that fits better in the final aspect.

The material in which it is made is **transparent Polycarbonate of high resistance** and with white finishes that make it ideal to accompany any of our models of water dispensers both compressor and natural, but especially, it is a perfect complement for our Elegance White, Elegance One and Le Plein.

Available in: transparent/white
